## HOSE TROLLEY KIT

HTS-99000

HTS-99000-SS (Stainless Steel Version)

### PERFECT FOR CLEANING

- Truck Wash Bays
- Automotive Detailing
- Automotive Wash Bays
- School Bus Shops
- Implement Wash Bays
- Farm Wash Bays
- Vehicles
- In Plant Cleaning

### KIT INCLUDES:

#### Hose Trolley Units

**(8):** Hose Trolley Units carry the hose along the cable lines.

#### Eye Bolts (4):

Eye Bolts screw into the wall to anchor the cable system.

#### Expansion Shields (4):

The expansion shields anchor the eyebolts to the wall and support the entire system.

#### Cable Clamps (6):

The cable clamps secure the cable and provides a stop for the trolley's.

#### 220 ft of 3/16" galvanized

Cable is figured for a wash bay. This will cover two sides of a 100 ft wash bay.

#### Turn Buckles (2):

Turn Buckles are attached to the Eye and Cable System to apply tension to the cable. It's essential to get the cable nice and tight.

#### Thimbles (2):

The thimbles are used when looping the cable and attaching to turnbuckles.

#### Nut Lock (8):

The nut lock is used to secure the eye to the expansion shields.

#### Options:

**HTS-00256 Trolley Support Bracket :**

Mounts to a wall to give you solid support.
