

PRODUCT DESCRIPTION: ELIMINATOR

is a high quality, concentrated cleaner/degreaser that contains an organic solvent to help dissolve grease, oil, mold, mildew, soap scum, etc. It is very effective in cold or hot water, high pressure washing of mobile homes, RV's, trucks, trailers, buildings, etc. It is also an excellent pre-spray for use on extremely difficult cleaning jobs and will clean engines, vinyl, white wall tires, stainless steel, aluminum, painted surfaces, floors, walls and counter tops. The corrosive inhibitors and water softeners in this product help prevent rusting of ferrous metals and scale build-up in heating coils.

DIRECTIONS FOR USE:

This is a concentrate, and in most applications should be diluted prior to use. However, when used as a pre-spray, it may be used full strength depending on severity of soil. When used through pressure washing equipment, drop detergent feed line into the concentrated cleaner, set metering valve to desired setting, and soak entire surface from bottom up. Detail clean from bottom up. Rinse with fresh water from the top down.

DO NOT USE ON PAINTED SURFACES AT CONCENTRATIONS OF LESS THAN 1:15. Do not allow to dry on surfaces, always rinse thoroughly. All products should be tested in an inconspicuous area.

Product Number
12405
