

PRODUCT DESCRIPTION:

HC-54 will clean and brighten unpainted aluminum without damage when used as directed. It will work in cold water as well as hot water.

DIRECTIONS FOR USE:

DO NOT RUN THIS PRODUCT THROUGH PUMPING SYSTEM OR HEATING COILS. Optimum dilution of this product is 1 part chemical to 30 parts water when applied down stream with a pressure washer. Used in a pump sprayer, mix 4 ounces of chemical to each 1 gallon of water. In hard water areas more chemical may be required. Always test chemical in an out of the way area. When cleaning with pressure washers, set the metering valve at desired dilution rate, and apply cleaning solution from the bottom up on a dry surface. Always detail clean from the bottom up and rinse from the top down.

DO NOT USE ON GLASS OR ANODIZED ALUMINUM. DO NOT USE ON DELICATE PAINT. Do not allow to dry on surfaces, always rinse thoroughly. All products should be tested in an inconspicuous area.

WARNING: CONTAINS HYDROFLUORIC ACID, all exposures are considered severe. Avoid contact with skin and eyes. Use with adequate ventilation. OSHA requires use of skin and eye protection. Do not allow to freeze. Do not store at temperatures above 120°F. Keep out of the reach of children. For industrial use only.
