

PRODUCT DESCRIPTION:

Shield & Shine is an all-surface product that provides superior protection for coated and uncoated surfaces, including automotive paint, chrome and glass. Shield & Shine contains a proprietary blend of carnauba wax and silicone polymers, which provides a binding protective layer on any surface, promoting water repellency, beading, and lower water roll-off angle. It also contains an organic solvent and blend of surfactants to act as a waterless vehicle cleaner. UV inhibitors further protect painted surfaces from harsh sun rays. Appropriate for use as a rinse aid, wax & shine, surface sealant / protectant, and waterless car wash. Produces a brilliant, long-lasting shine.

ENVIRONMENTS

- Automatic And Self-Serve Car Washes
- Tunnel Car Washes
- Truck Washes
- Protection And Sealant For Any Coated Or Uncoated Surfaces

DIRECTIONS FOR USE:

For automatic application, set metering device to apply Shield & Shine at a dilution of 1:128. For best results, do not allow to dry on surface without rinsing or blowing. For spray & wipe waterless cleaning, apply to surface at 1:20 dilution. For hand agitated/buffed wax application, apply to surface at 1:5 dilution. Ensure buffing action is employed and product does not dry on surface without buffing.

Product Number
38300

Batch Number
060921

SHIELD & SHINE

- **Lasting Protection From The Harsh Elements**
- **Causes Beading And Runoff Of Rain And Snow On Painted Surfaces, Reducing Soil Deposition**
- **UV Inhibitors Protect Paint From Harsh Rays**
- **Super Concentrated For Maximum Economy**

KEEP OUT OF REACH OF CHILDREN

Do not handle until all safety precautions have been read and understood. Use eye, face, and rubber glove protection when handling these contents. Do not store at temperatures above 120°F. Do not allow to freeze. See side panel for additional precautions.
